UTTER SOURCING

Business Profile

Company Overview

Utter Sourcing is a professionally managed garment sourcing partner with over 7 years' experience. We connect global buyers with trusted manufacturers in Bangladesh and China, ensuring quality, compliance, and timely delivery.

We pride ourselves on our strong network of manufacturers and suppliers who are equipped with state-of-the-art facilities and comply with all social compliance standards. Our operations are designed to deliver high-quality products on time, ensuring a high level of customer satisfaction.

At Utter Sourcing, we adopt a quality-conscious and value-driven approach to every aspect of our work. With expertise in quality merchandising and a keen eye for global fashion trends, we design apparel that meets the dynamic needs of the market. We pay significant attention to details such as color, fabrics, and garment design to create offerings that resonate with customers

OUR STRENGTHS

Global Network & Local Expertise

We work with audited factories in Bangladesh, China, and Europe, providing clients access to trusted manufacturing while ensuring dedicated local support.

Quality Without Compromise

From fabric selection to final packaging, every process is monitored with precision. Our multi-stage quality assurance system ensures products exceed customer expectations.

Cost-Effective Solutions

Leveraging strong supplier relationships, we provide highly competitive pricing without sacrificing quality or compliance.

Experienced & Passionate Team

Our designers, merchandisers, and sourcing experts deliver industry knowledge, market insight, and creativity with every order.

Sustainability Commitment

We are at the forefront of eco-friendly sourcing practices, collaborating with green-certified factories and introducing sustainable materials for future-ready fashion.

We Collaborate

At Utter Sourcing, collaboration lies at the heart of our approach. We pride ourselves on offering robust in house Design and R&D support, tailored to meet the specific requirements of each customer.

- **Fabric Innovation**

Our dedicated Fabric R&D team continually develops innovative fabrics to suit the unique needs of our clients, combining creativity with functionality.

- **Design Expertise**

:Leveraging global insights, creativity, and tools like WGSN, our Design team conducts thorough market research and presents customized proposals based on seasonal trends.

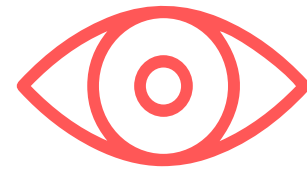

- **Mood Boards & Trend Analysis**

Each season, our team prepares comprehensive mood boards, incorporating new fabrics, prints, embellishment techniques, and concept ideas to inspire our clients

- **Customer-Centric Product Development:**

From design to execution, we develop products that align with our customers' brand identity, target price points, and quality expectations

WHO WE ARE

Vision

To be a trusted partner in the global apparel industry by delivering sustainable, innovative, and high-quality garments with on-time delivery.

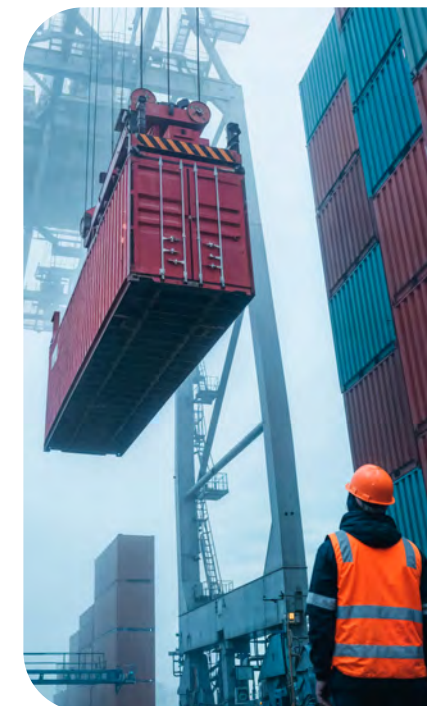

Mission

To become a leading global sourcing partner by innovating continuously, embracing sustainable practices, and building long-term client partnerships.

WHAT WE DO

- Product Development & Sampling
- Supplier Identification & Management
- Order Execution & Production Oversight
- Compliance Monitoring
- Quality Control & Inspections
- Shipping & Logistics

SUSTAINABILITY & INNOVATION

- **Product Development & Sampling**

We source and develop sustainable textiles such as organic cotton, recycled polyester, and fabrics dyed with low-impact chemicals.

- **Green Factories**

We collaborate with LEED-certified and environmentally responsible factories that minimize water usage, energy consumption, and waste.

- **Circular Fashion**

Our R&D team actively explores ways to design garments that can be reused, recycled, or repurposed, supporting the global shift towards circular fashion models.

- **Innovation in Fabrics & Processes**

We stay ahead of industry trends, introducing performance-enhanced fabrics, sustainable washes, and cutting-edge embellishment techniques.

QUALITY ASSURANCE & CONTROL

- **Fabric Inspection**

Before production begins, every fabric lot is inspected for defects, color consistency, and strength.

- **Pre-Production Checks**

Patterns, trims, and initial samples are thoroughly reviewed and approved before bulk production starts.

- **Inline Inspections**

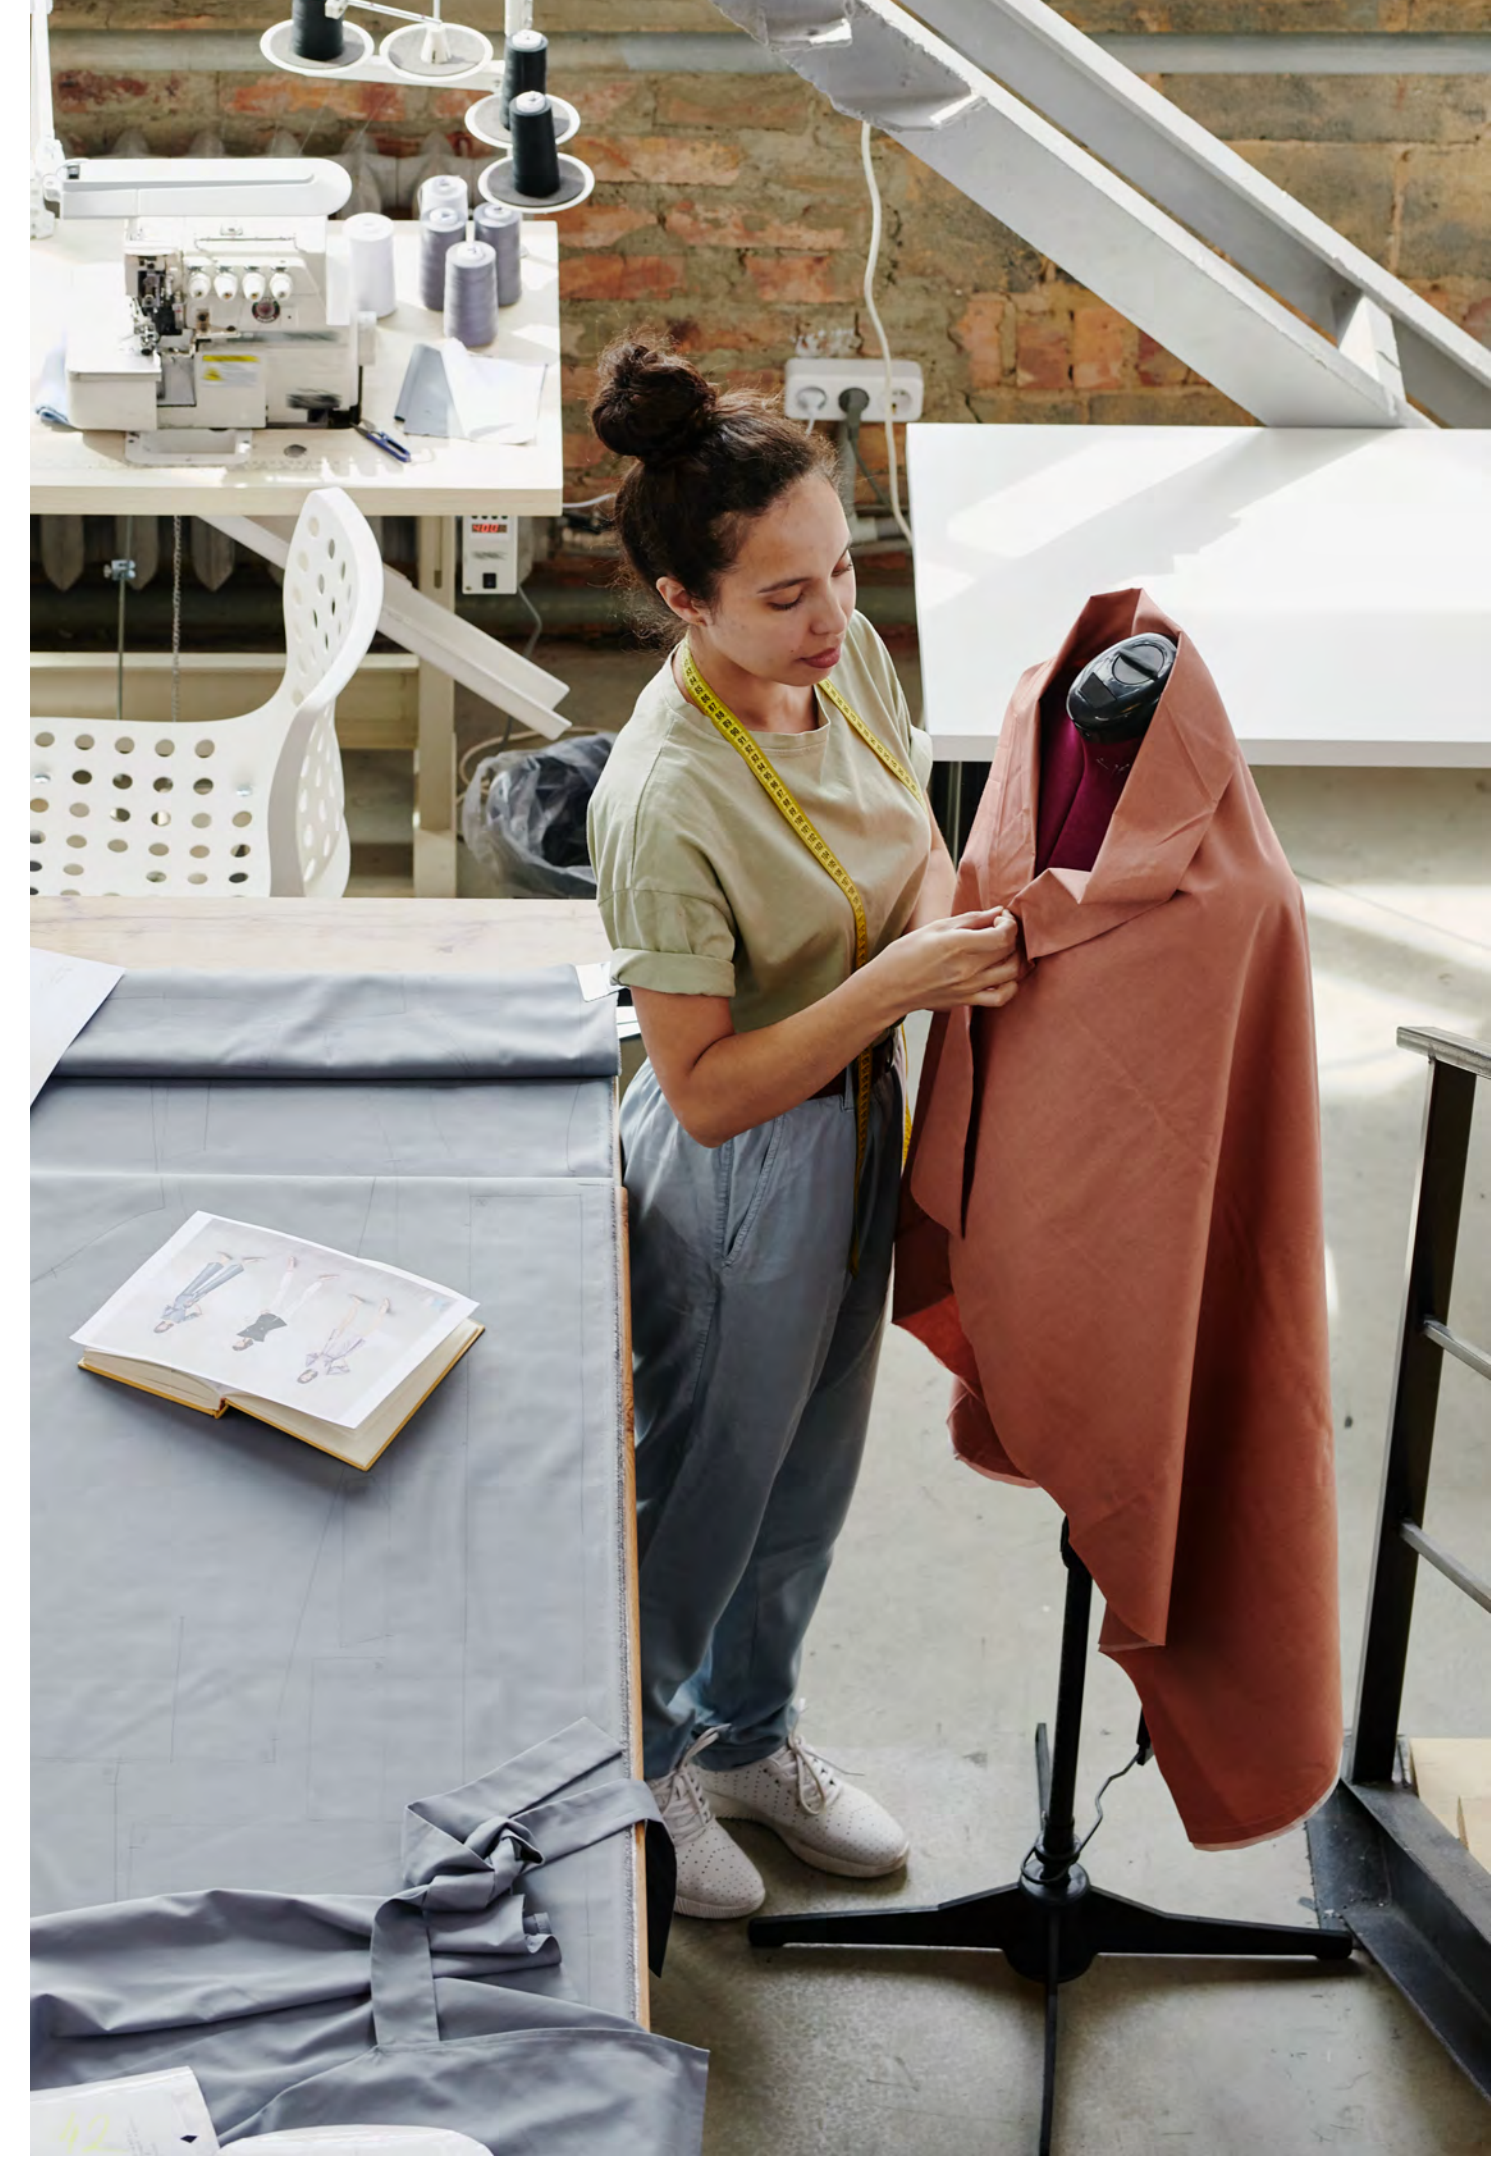

Random checks are conducted during production to detect and resolve issues immediately.

- **Final Inspection**

Products undergo strict AQL (Acceptable Quality Level) testing to ensure international compliance.

- **Laboratory Testing**

We conduct shrinkage, colorfastness, and durability tests to ensure garments withstand real-life use.

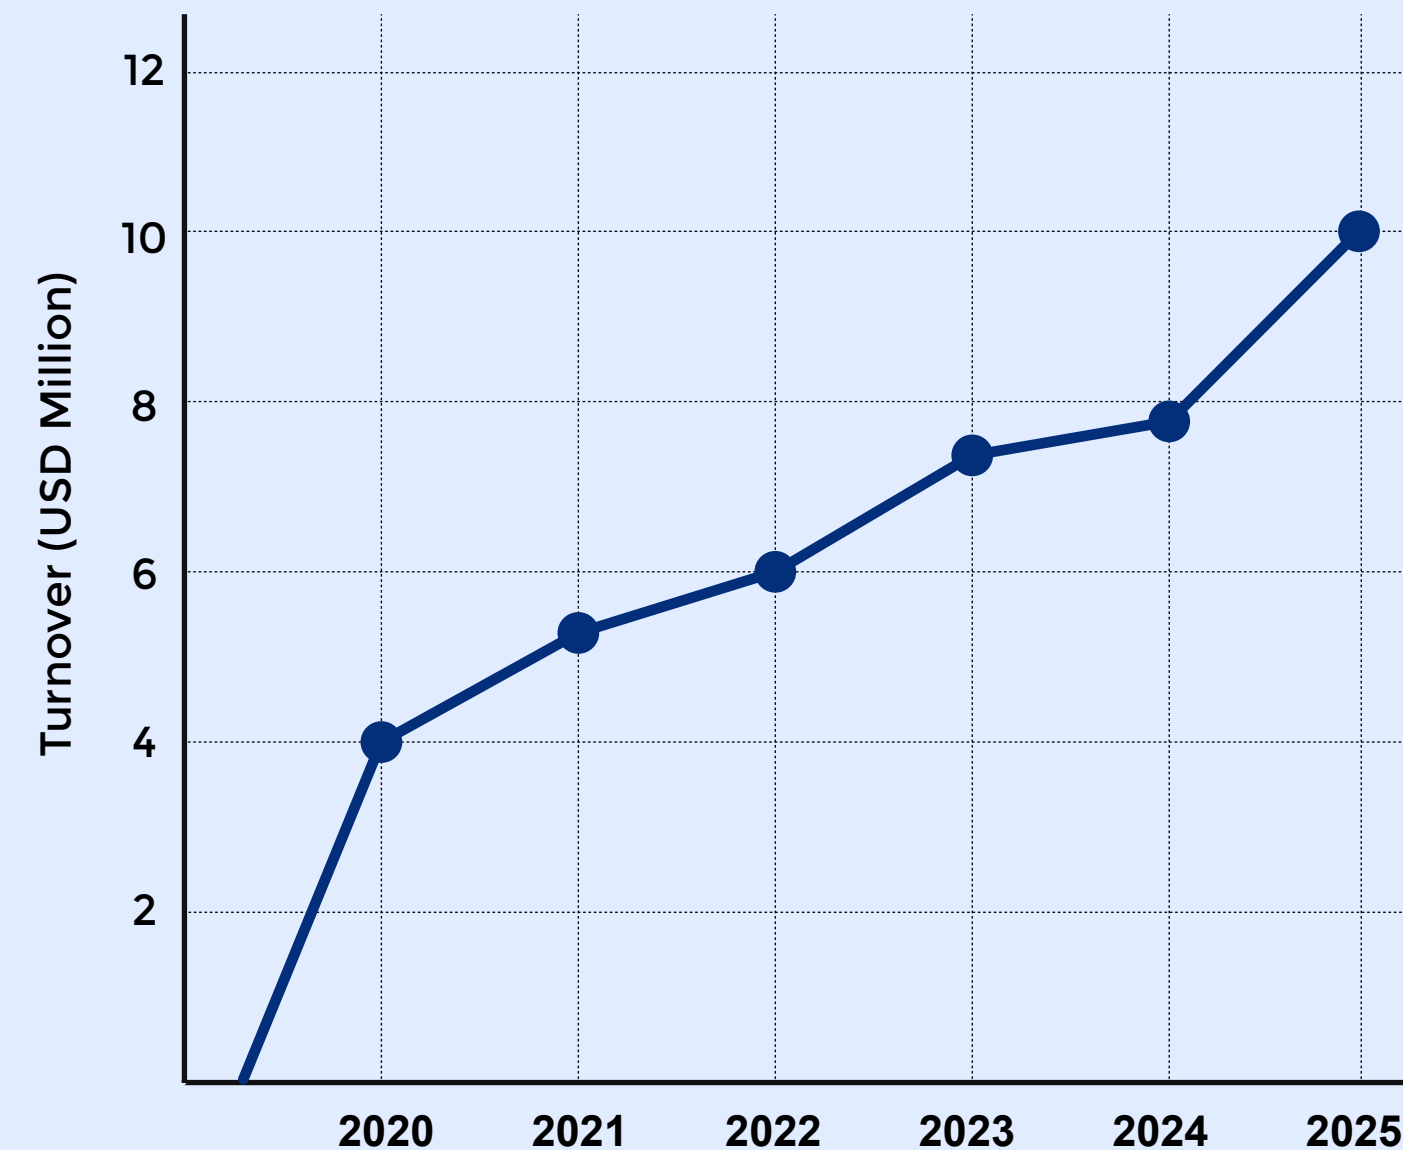

BUSINESS PERFORMANCE 2025

Since our establishment in 2016, Utter Sourcing has experienced consistent growth, fueled by innovation, quality, and strong client relationships.

Between 2020 and 2025, our annual turnover ranged from USD 4 million to USD 10 million. Our success reflects both the loyalty of our long-term partners and our ability to attract new global buyers each year.

Key performance highlights include:

- **Seasonal Production**
Seasonal Production Volumes ranging from 10,000 to 290,000 pcs per season.
- **Client Expansion**
across North America, Europe, and Asia.
- **Partnership with 4+ Audited Factories**
that meet social, ethical, and environmental compliance standards.

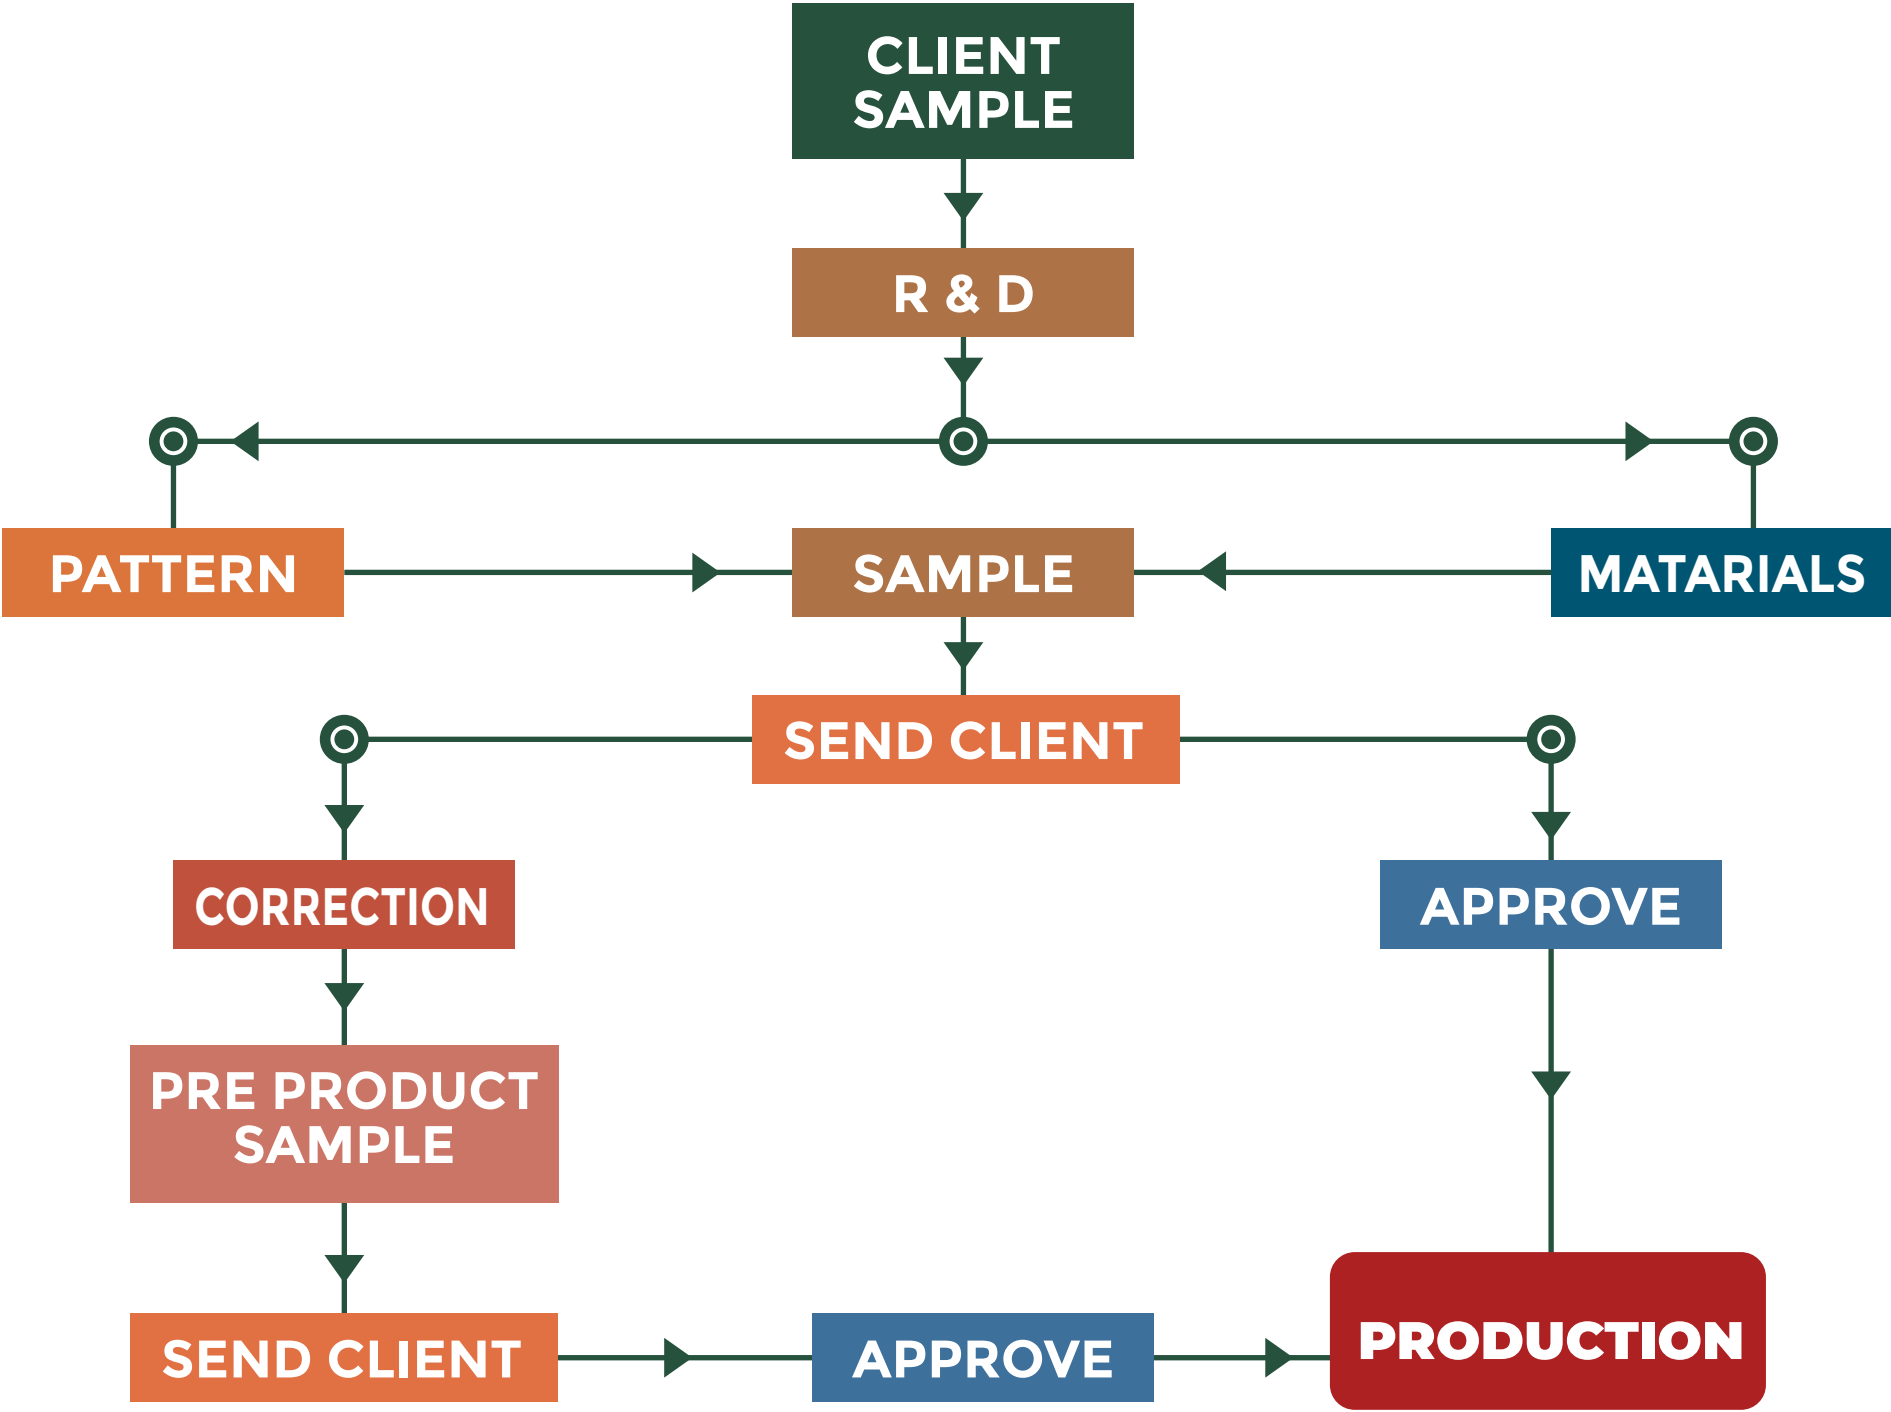

Turnover growth from 2020 to 2025 (USD4M-USD 10M)

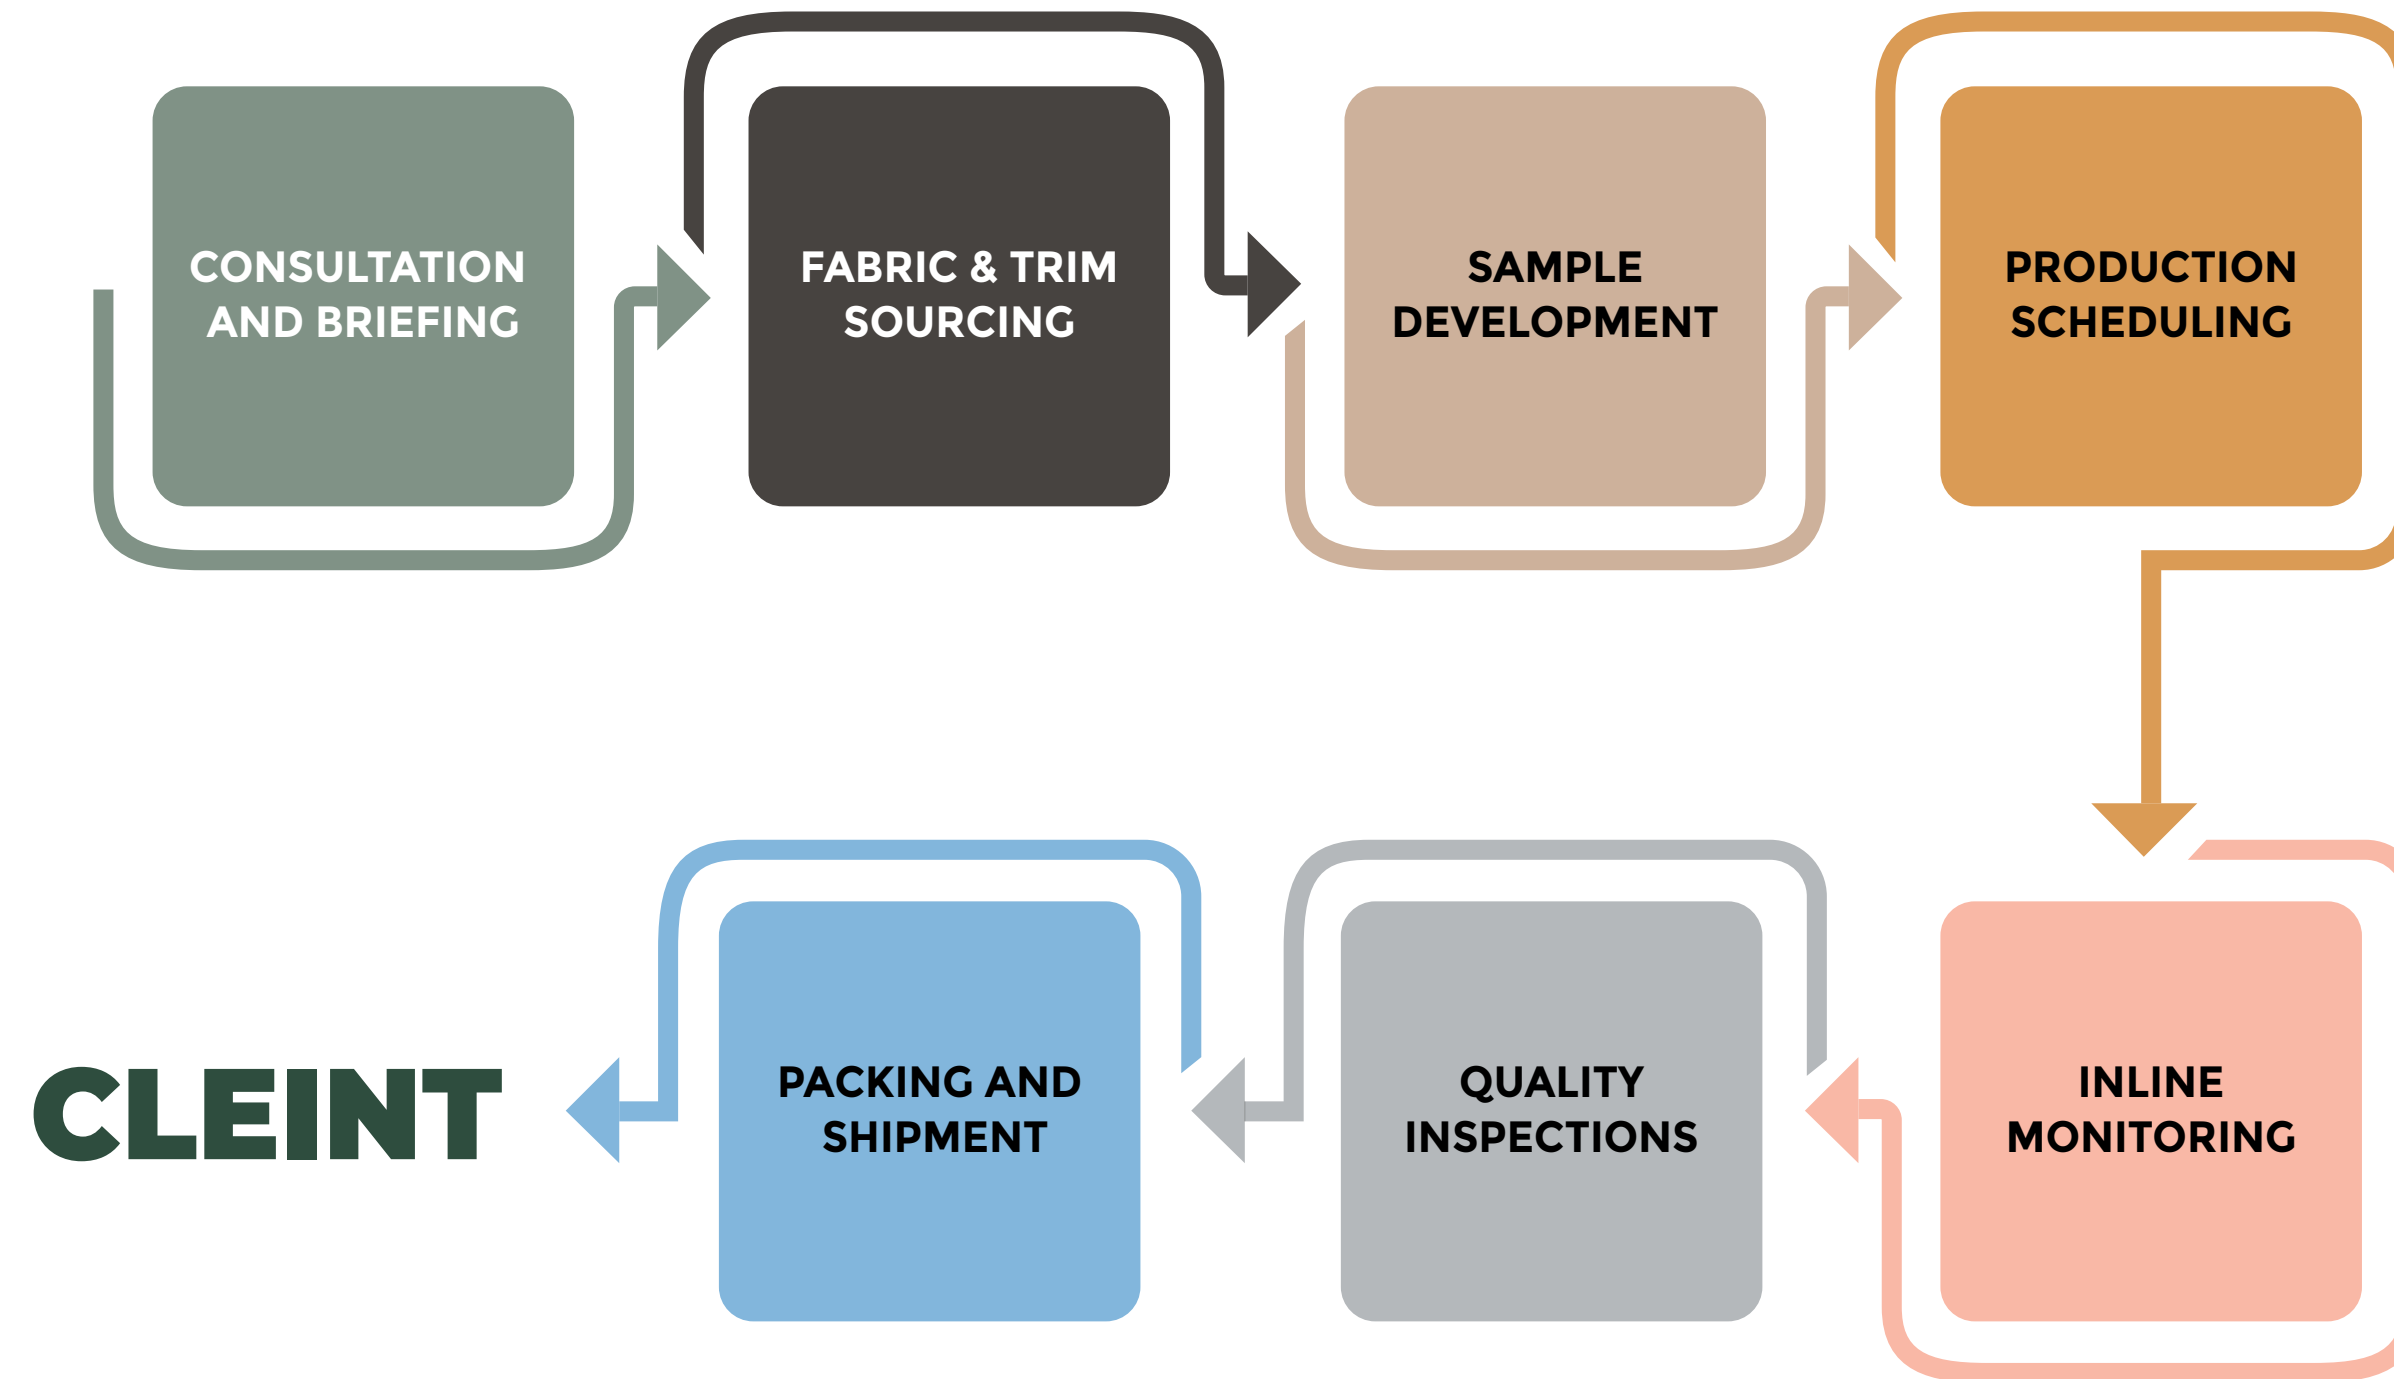

PRODUCT DEVELOPMENT & R&D

Our R&D team is one of Utter Sourcing’s core strengths. We don’t just follow trends—we anticipate them.

We specialize in fabric innovation, seasonal design concepts, sustainable washes, and customized development tailored to each brand’s identity and market. By blending creativity with technology, we keep our clients ahead in the global fashion landscape.

MANUFACTURING PROCESS

OUR CLIENTS & FACTORY NETWORK

Utter Sourcing is proud to serve a diverse global clientele that includes international brands, retailers, and private labels.

- North America – Partnerships with retailers and brands across the USA and Canada.
- Europe – Strong presence in the UK, Germany, France, Spain, and Portugal.
- Asia – Collaborations with buyers in emerging and established markets.

FACTORY STANDARDS WE WORK WITH

We partner only with factories that follow the highest standards of safety, compliance, and sustainability. All facilities are Accord/Alliance certified, legally registered, socially audited, and eco-friendly where required. Every production unit ensures ethical practices, fair wages, and worker safety.

Integrated Manufacturing Network

Integrated Manufacturing Network

We collaborate with **audited, export-oriented factories**, combining:

Woven Division

- Capacity: 350K–400K pcs/month
- Core: Denim, Chino, Cargo Pants
- Strong in: washing, structured garments, durability

Knit Division

- Capacity: 1.3 Million pcs/month
- Core: T-Shirts, Polo, Sweat, Hoodie
- Vertical setup: Knitting → Dyeing → Sewing → Finishing
- Strong in: volume, cost efficiency, speed

This dual capability allows us to handle both volume basics and fashion bottoms efficiently

◇ OUR MANUFACTURING APPROACH ◇

- Unlike single-factory suppliers:
- We assign production based on **product specialization**
- Each order goes to the **most capable factory**
- Ensures:
 - Better quality
 - Better pricing
 - Lower risk

We don't push products into factories — we match products with the right factories

Delivery & Production Control

We provide structured production control across all orders:

- End-to-end order tracking
- Real-time production updates
- Dedicated merchandising team
- Strict timeline monitoring
- Multi-factory coordination

Ensuring on-time delivery across multiple production units

Compliance & Certifications of Manufacturer

Our partner factories are certified with:

- OEKO-TEX® Standard 100
- BSCI
- SEDEX / SMETA
- WRAP
- GOTS / GRS (selected units)

Ensuring full compliance with EU & international standards

CERTIFICATIONS
