UTTER SOURCING

Collaboration is where ideas begin.

At Utter Sourcing, collaboration lies at the heart of our approach. We offer robust in-house Design and R&D support tailored to each customer.

- **Fabric Innovation**

Innovative fabrics developed to suit unique client needs, combining creativity with functionality.

- **Design Expertise**

Global insights, creativity, and tools like WGSN inform market research and customized seasonal proposals.

- **Mood Boards & Trend Analysis**

Seasonal mood boards incorporate new fabrics, prints, embellishment techniques, and concept ideas.

- **Customer-Centric Product Development**

Products align with brand identity, target price points, and quality expectations.

One mission. □ One long-term vision.

MISSION

To become a leading global sourcing partner by continuously innovating, embracing sustainable practices, and building long-term client partnerships.

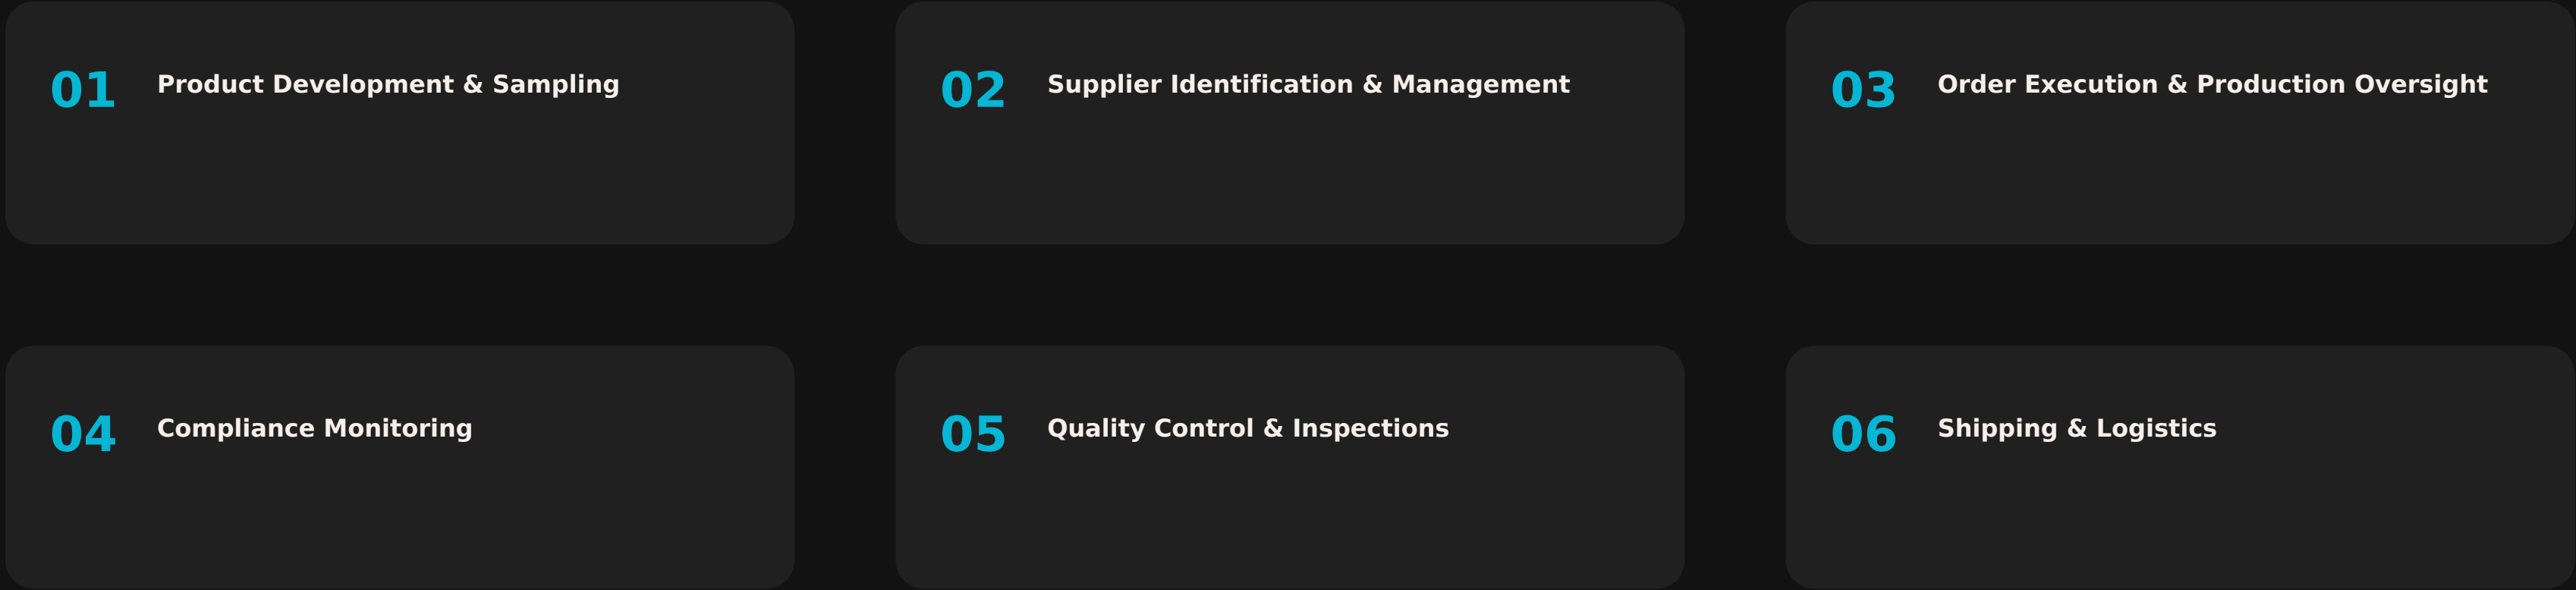

VISION

To be a trusted partner in the global apparel industry by delivering sustainable, innovative, and high-quality garments with on-time delivery.

From brief to shipment.

A complete sourcing workflow with control at every stage.

Future-ready by design.

- **Product Development & Sampling**

Organic cotton, recycled polyester, and low-impact dyed fabrics.

- **Green Factories**

LEED-certified and environmentally responsible factories that minimize water, energy, and waste.

- **Circular Fashion**

R&D exploring garments designed for reuse, recycling, and repurposing.

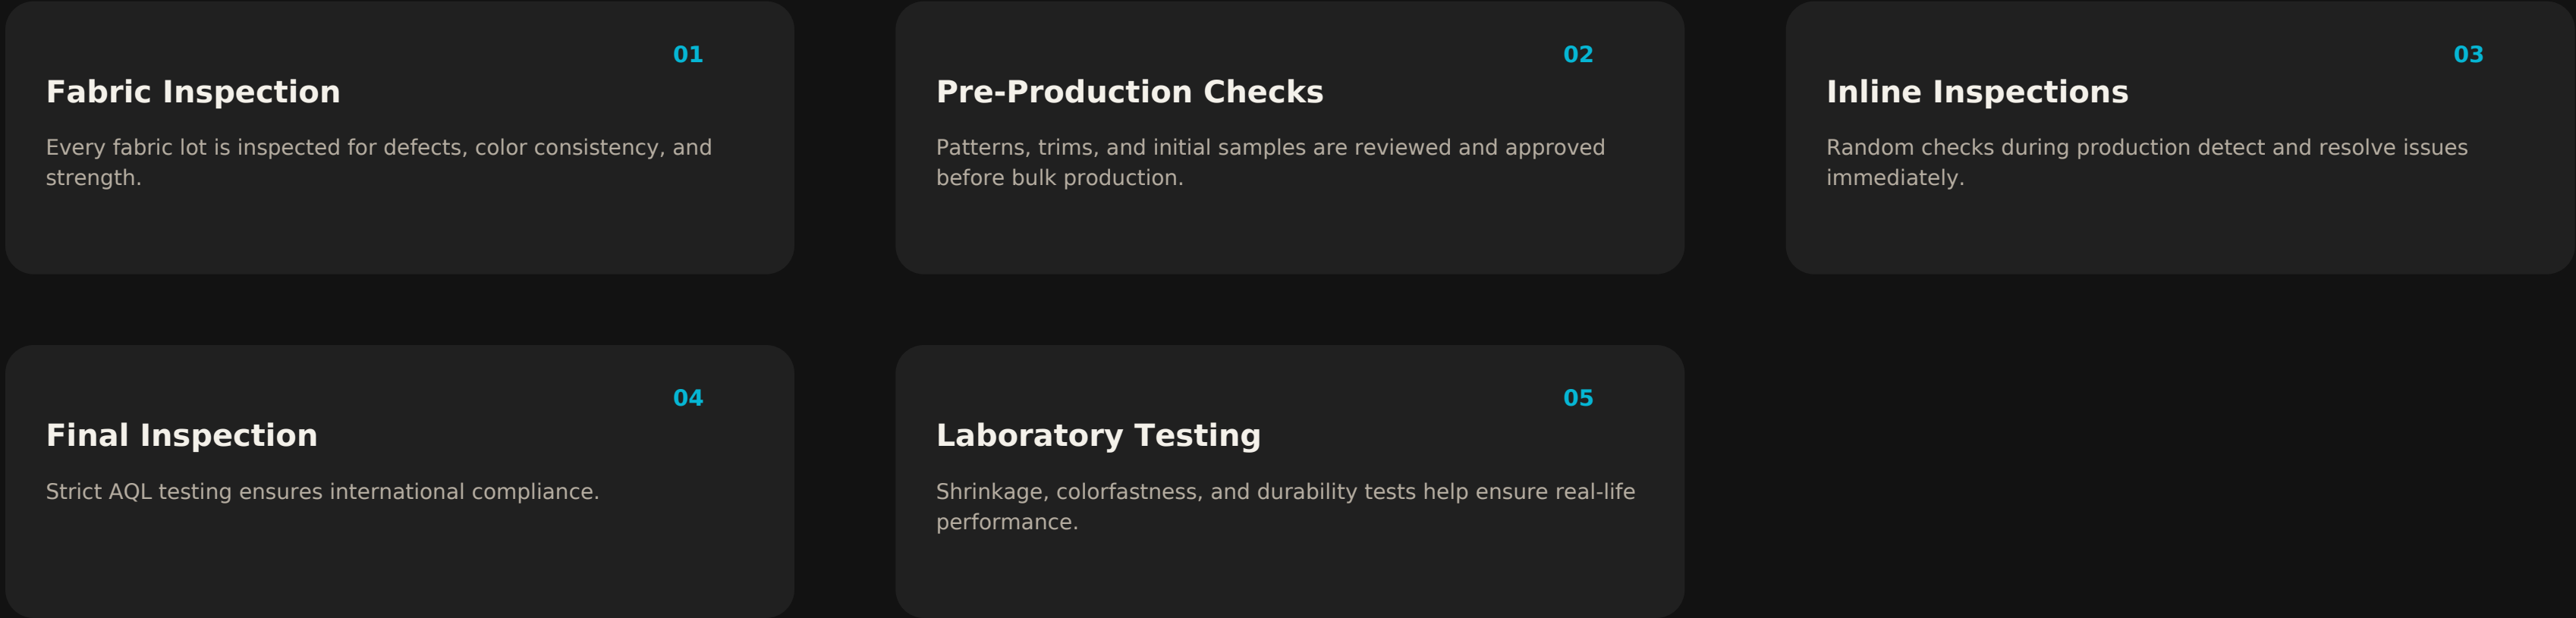

- **Innovation in Fabrics & Processes**

Performance-enhanced fabrics, sustainable washes, and cutting-edge embellishment techniques.

Quality is a process, not a final check.

Our multi-stage quality system keeps issues visible, measurable, and actionable.

Growth you can measure.

2020 — 2025
